

So you yeeted a trash person
into the sun...

How Shall we Get Away with it?

There's a little blue bird giving
you side eye.

Quick! Come up with an excuse
or roll a D8

- 1 ummmm .. they fell into the sun?
.....
- 2 The sun was hungry?
.....
- 3 They asked nicely to take a trip
to the sun?
.....
- 4 The sun was running low on
energy and jerks make the best
fuel?
.....
- 5 They took a wrong turn at the
moon?
.....
- 6 They were drawn in by how
shiny the sun is?
.....
- 7 All their friends were already
there?
.....
- 8 I don't know bud! Come up with
your own excuse!

Time to celebrate!

VICTORY!

You've gotten away with it!

Until a certain little blue bird hears
about it and you end up in Twitt jail.

Oh well, it was worth it. Celebrate with
a shout of success!

*(yes, you must shout something to
complete the game)*

And start planning what you're going to
do during your jail break.

Hey Thanks!!

Shout out to all the folx fighting for the
right to yeet baddies into the sun!
Thanks always to my friends who
encourage my nonsense, Patreon
supporters, and beloved nerdy ass Discord
community

Who and what now!?

Into The Sun

A game about where trash
people belong

By Jess Go

There are some people that just need to go away and what's more reasonable than chucking them into the sun?

Literally nothing

This an extremely serious and very literal game about getting to huck people unceremoniously into our local fireball.

Take this seriously

Choose from a wide array of people to eject from the planet.

Roll a D8 or pick your target and think about why they deserve a fiery time out.

- | | |
|---|--|
| 1 | Nazis |
| 2 | Transphobes |
| 3 | Racists |
| 4 | Misogynists |
| 5 | Homophobes |
| 6 | Ableists |
| 7 | Gatekeepers |
| 8 | That person at work who steals lunches |

How Shall we Get Rid of Them?

Roll a D8 or choose your method with **ruthless** forethought.

What has a nice personal touch, what do they deserve, or what's just easiest for you.

-
- 1 Punch them, but that might hurt your hands. Roll again
-
- 2 Toss them in the sun!
-
- 3 Eat them, but they probably taste bad. Roll again
-
- 4 You know who'd like to eat them? The sun.
-
- 5 Dump them in the ocean, but they're trash so that's polluting. Roll again
-
- 6 No trash survives the sun. Throw them in.
-
- 7 Compost them, but unless you have a garden that likes high acid content. Roll again
-
- 8 INTO THE SUN THEY GO!
