Well I heard..

Handwriting practice lines consisting of ten sets of three horizontal dashed lines.

the creature

Some say it's tree is like, but others say it has dragon-like scales. Three cursed skulls peer out from under its skin. They sink and reappear to face its enemies.

I heard to look into its eyes is to see how you die and freeze while you watch it replay again and again. Usually its with it great rusty harpoon bursting through your chest or lacerated by its burning tendrils.

Farmer Oden told me it carries a dagger of the ancient king that gives whoever wields the power to win the hearts of minds of warriors. When the creature sleeps it places it upon a pedestal surrounded by the skulls of its victims. Getting close is impossible because the skulls all scream soon as they see you.
