The earth endures
but retains **scars.**
Seasons become
hallucinations.
The forest
burns.

There's a constant **relentless**
buzzing. Sulfuric fog
rests **above the city** and
highway hypnosis. **Killer**
silhouettes **spawn in sundown's**
orange-blighted
cobalt blue.

The night unzips its face
to reveal a **lake**
completely dried.

A wood sign sticks up from the mud:
