

LORDS OF THE
FALLEN
ARTBOOK

Bosses

The generals of the Rhogar army are a direct extension of the Fallen God's will. They are more independent, resourceful and much more dangerous than the lesser demons they command in battle.

Bosses

Commander

Once known for his preoccupation with the physical shell. He had the most dedicated followers in battles he commanded.

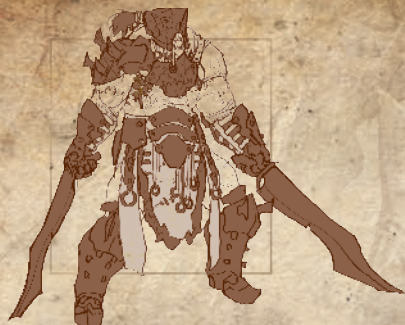

Bosses

Lost Brothers

First they screamed in agony and fell down, motionless. Then... Then they started to grow. One engulfed in fire, second surrounded by lightnings.

Bosses

Guardian

Uses two barbaric greatswords with
so much ease that there must be an
elemental force aiding him.

Bosses

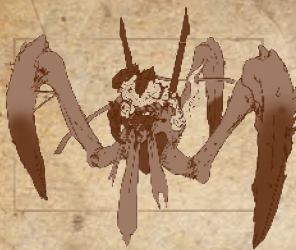

Champion

Somehow, he feeds on our rage.
Let us feed on his.

Bosses

Infiltrator

Bigger than all Lords, odd number of limbs, twisted flesh mixed with weapons.

Bosses

Judge

When everything else fails, what other choice will we have?

Bosses

Worshiper

Graves should be tended and never forgotten. What else will shield us off from evil?

Bosses

Annihilator

All evidence of those getting through the underground chambers leading there seems to be filled with lost memories, as if those who made it were shocked by something.

Opponents

If Harkyn is to be judged by the quality of his enemies, he is formidable indeed. The demonic Rhogar, hostile humans and twisted, unholy creatures stand in our hero's path. Each one is a different variety of violent death personified.

Locations

To learn the true meaning of the war between human and demonic realms, Harkyn must explore both of them. From ancient man-made fortifications to otherworldly locales where the flesh of the Fallen meshes with the surroundings.

Weapons & Armor

For Harkyn the only things between him and the unforgiving world have always been his weapons and armor. Now that the stakes are higher and the enemies more powerful than ever, an armory full of legendary arms is a necessity.
