From the start of your journey, begin to recognize the taste of success. Its flavor you'll find not only satisfying, but all consuming as it heightens your travels.

Maps

Part of the mystique enjoyed while adventuring Might and Magic is the player's need to map 55 distinct 16 by 16 square grids. Those traveled before you, after long hours, have successfully mapped each grid. This led them to their Secret.

Some adventurers are anxious to begin their journey. In their eagerness they perhaps view mapping and its skill as time consuming. The following pages provide all maps needed to venture the Land of Varn. While all maps are provided, special events and encounters are left for your search. May your journeys flourish with great rewards!

Towns

Once was a time that children frolicked through the Land of Varn. Happiness was known and felt by all. Though happiness still abounds, change has come. This change has driven the towns underground. Thus explaining the cavernous openings found on your map.

As you embark on your journey, take note to act wisely. When traveling the five towns, they become both familiar and unique. Once your party registers in the Inn, you're free to meet the townspeople and explore its sites. Charity pays on judgment day. Be sure to call on Blacksmiths, as they have supplies to aid in your journey. Since the journey promises to be a long one, shop for many culinary delights. Simple tipping gestures bestowed on bartenders prove worthwhile. Listen for rumors. Temples are to be visited to gain needed clerical guidance. Being that skill and experience are of great importance, perhaps your interest lies in training exercises. These are the familiar. The closer to town you travel, the safer your journey. One of the towns is without natural caverns, while another gives you change in its pool. Each town need be shopped wisely. Purchases made vary in worth, cost, and of course in magic! Read on for the unique...

 = Secret Door

Town of Sorpigal

Your adventure begins in the quaint Town of Sorpigal. It is written that here in Sorpigal you find seven of the eight statues*. Search these statues, as they possess valuable insight on quests toward the Secret of the Inner Sanctum. The wise avoid jailings. Sorpigal, though a lovely town, is just the beginning. You will go beyond. If your party yearns for the outdoors, seek its passage. If you yearn to travel to another town, look for the Irish one. A mere gem makes him a fine travel agent.

*Further writings on the whereabouts of the eighth statue remain lost.

Town of Portsmouth

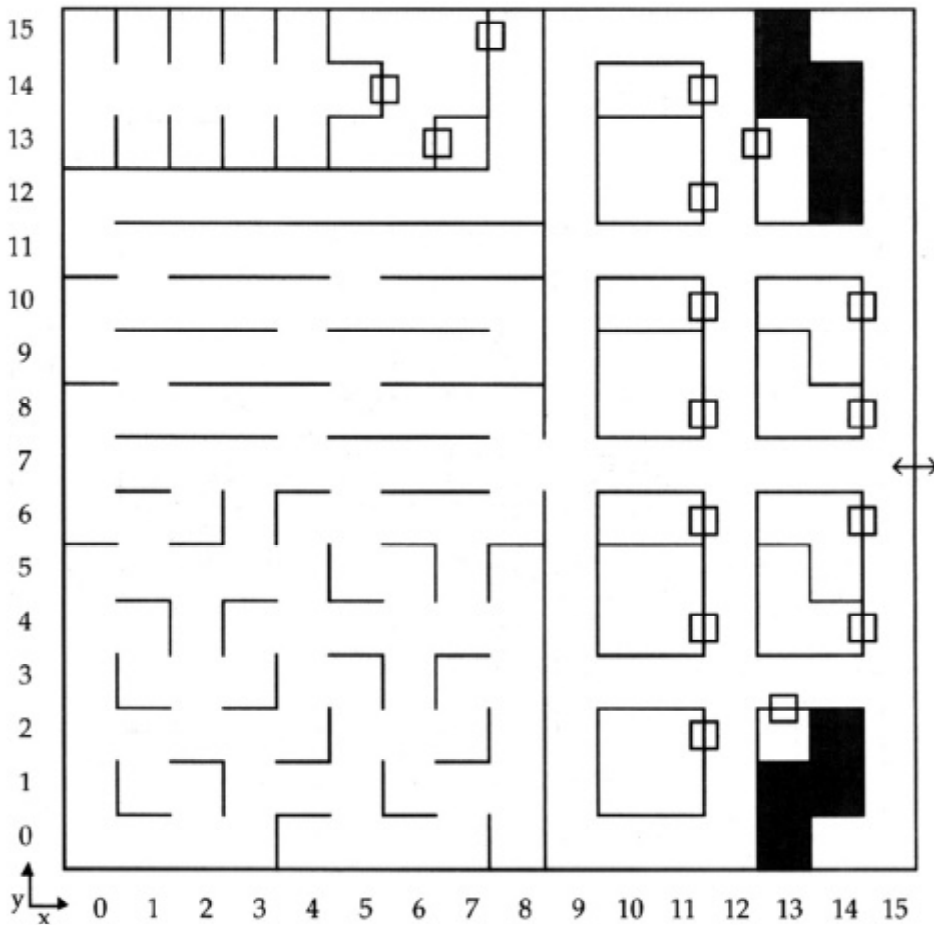

The Succubus Queen clearly holds reign in the Town of Portsmouth, although her reign isn't conforming. Some yearn underneath for the contrary, as they find her exhausting. One waits for you here by secret passage. Once found, you'll not only unearth the understanding of Portsmouth, but enhance your quest. Of demons and devils, a lesson is to be learned, perhaps even encountered.

Town of Algary

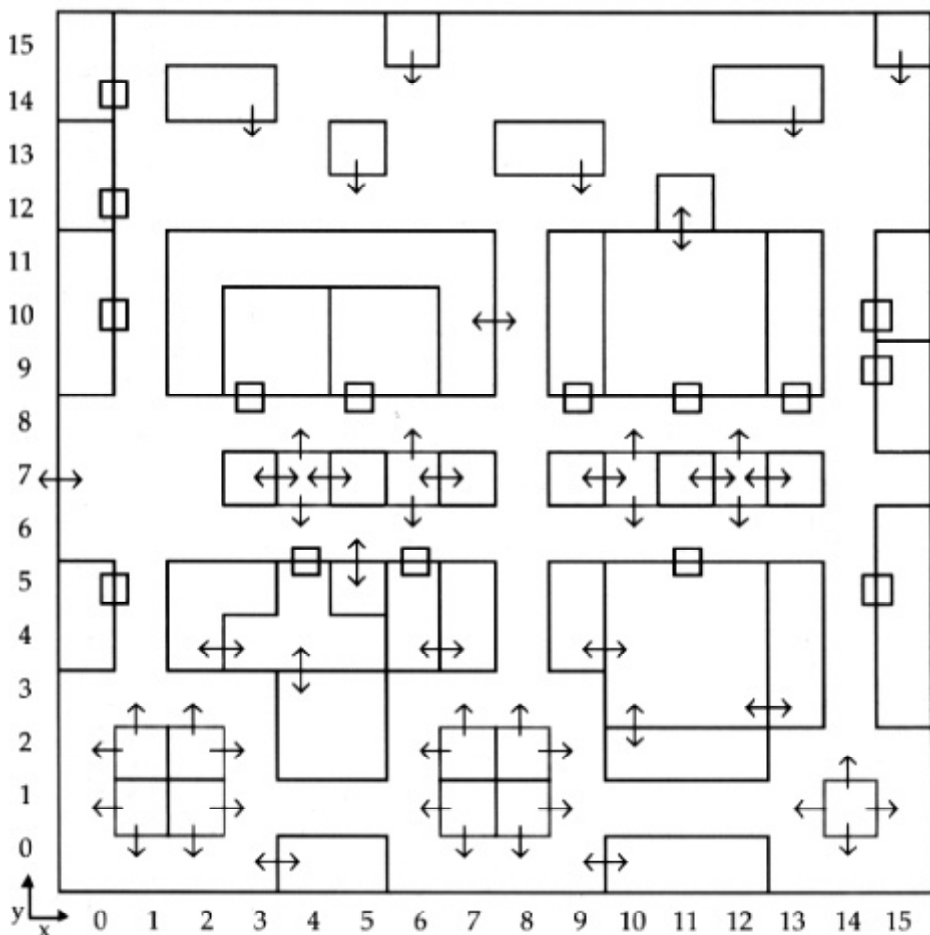

One waits for you in the Town of Algary, proving that clues do add up. Resembling a tailor, the Mystic takes your measure. If it's treasures you seek, you'll find plenty, And plenty of encounters too! This town is mid-range in worth. Its flooring has found anchor in the Marsh. Travel from here is most unusual.

Town of Dusk

The Town of Dusk appears to be a confusing network, but that's just the half of it. While appearing so life-like, it's surely a different world than you've known. Don't let this illusion alarm you. One will accept your delivery and further share secrets. Plenty of, shall we say, chance meetings await you?

Town of Erliquin

Ah Erliquin! Truly a magical town. And lucky for your party, a wealthy one too! The town treasure is surely generous. Use caution if you intend to hoard. Town guards are known for their stern disciplinary actions. Your delivery is appreciated. Expect further instructions divulged.

Natural Caverns

Nine natural caverns await you. Caverns, as the name suggests, are underground chambers. They are ideal for adventure and gathering information. Though a bit more dangerous than towns, they are viewed fairly safe on the whole. Travel from cavern-to-cavern may be done via the shimmering blue and white portals. Thus eliminating the need to travel outdoors. Journeying the caverns reveals that which appears usual, and of course, the unusual. Levitation skills save you from much peril. Statistics are relative. Your party will long for more challenging caverns as you gain in experience. Discover easy the usual. Hunt aggressively for the unusual.

Legend

 = Door (may be locked, trapped, etc.)

 = Magic Barrier

 = Secret Door

 = Grate (may be locked, trapped, etc.)

Cavern under Sorpigal

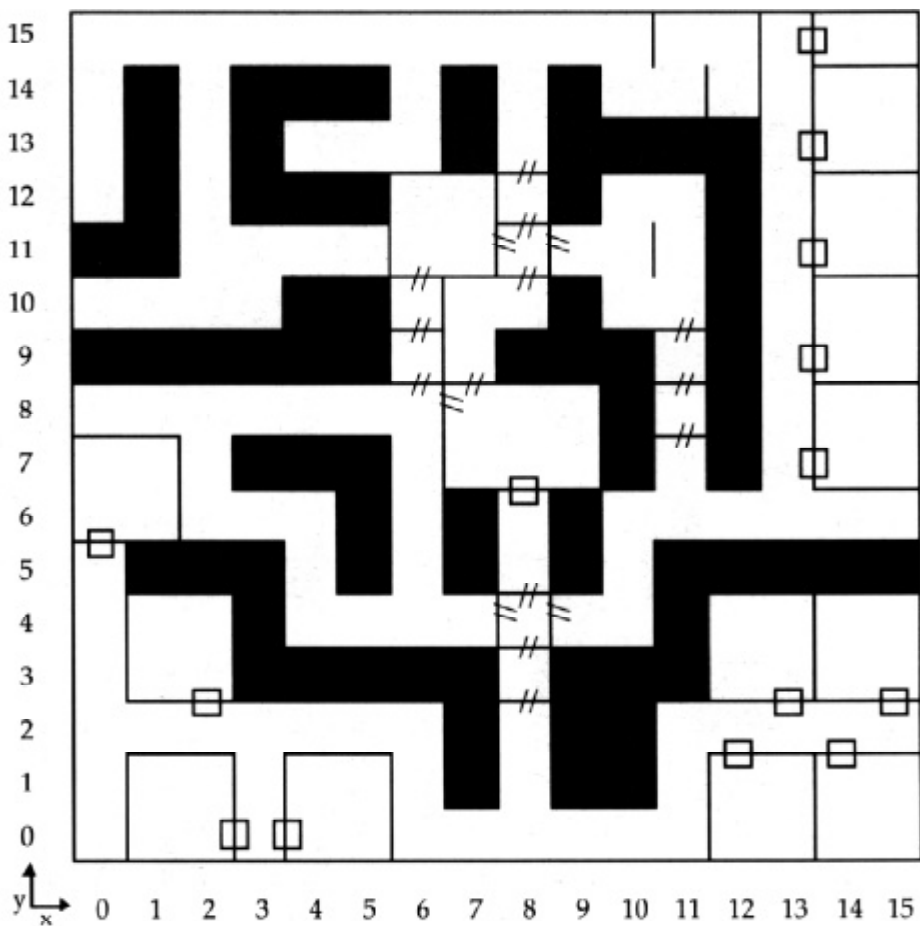

It is here a man in robes grants you your first quest. This chamber is ventured generally by those with lesser experience. Encounters here are relatively safe. The Arena will serve as good proving grounds for your skills, but rewards appear trite.

Cavern in the Northern Barrier

Learn the value of your jump spell. Search the button that turns the slide off, as continual acid pool bathing seems unwise. While in this chamber, battle the thirteen specific encounters to their entirety and you'll obtain the bronze key. Take heed of the Banner's warning.

Cavern under Portsmouth

This is a popular place for here lies the Pool of Reversal. Beware, for there are other pools here as well. This chamber is full of demons, orcs, goblins and such. Disturbing them may bring your death. With the appropriate key, you'll open the door.

Cavern under Erliquin

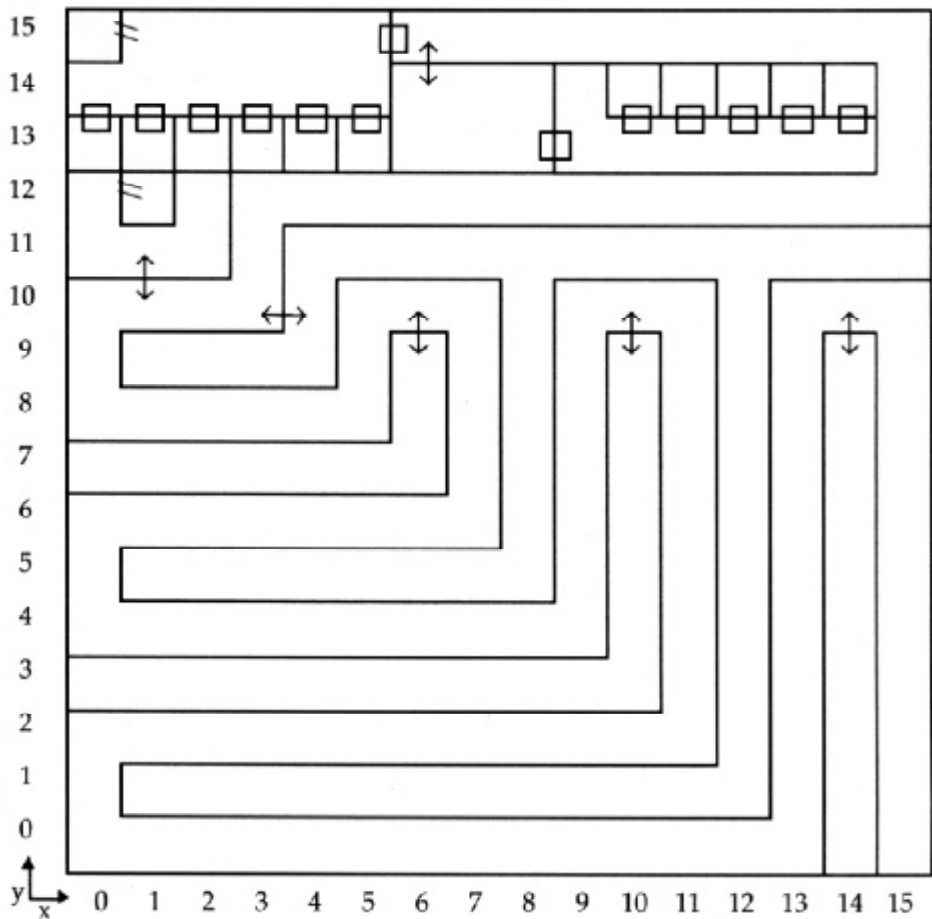

This chamber gives a mirror-like illusion. Be guided by careful mapping and location skills. In the cavern below Dusk, Corak gave clues. There sits the access code and message now required. Treasure you will reap, but none before deactivation. Passage leads to the Quivering Forest

Cavern under Dusk

This chamber appears most difficult. Passages and portals abound. Protection spells save you. Take drink from the Prism of Precision and the Flame of Agility. Visit the Shrine of Okzar, his rewards prove magical. Traps are plentiful. Take note of the etched message.

Cavern in the Korin Bluffs

Wizard Ranalou describes your quest. Portal transport remains simple and bountiful. Levitation and jump skills save you. Don't hesitate to jump more than once. The presence of creatures and aliens are felt, yet not often seen. Power you seek? Find the wondrous Thundranium.

Cavern in the Volcanic Isles

Sweetly kiss the one known as Virgin, On meeting the Volcano God, answer his riddle for it is he who holds your key card. A statue from Sorpigal gives part of your clue. This key furthers your quests to the Secret of the Inner Sanctum. A clue other than color is found. Teleport you'll find random until dials are set.

Cavern in the Hawkseye Hills

This chamber is known as the Cave of Square Magic. The solution you'll find mystifyingly mathematical. Your sum equals 34 in all directions. Take note the solution is classic and 10 plus are preset. Then, and only then, pull its lever.

Cavern North of White Wolf

Save for Dusk, this will be near toughest. Dungeon walls invade this chamber. You'll see dragon types and poison spikes. Note the message you find. The unfortunate adventurers before you still remain. Though now you'll see them statue-like and shattered. Find the head of your search, as this encounter turns them to stone.

Outdoor Regions

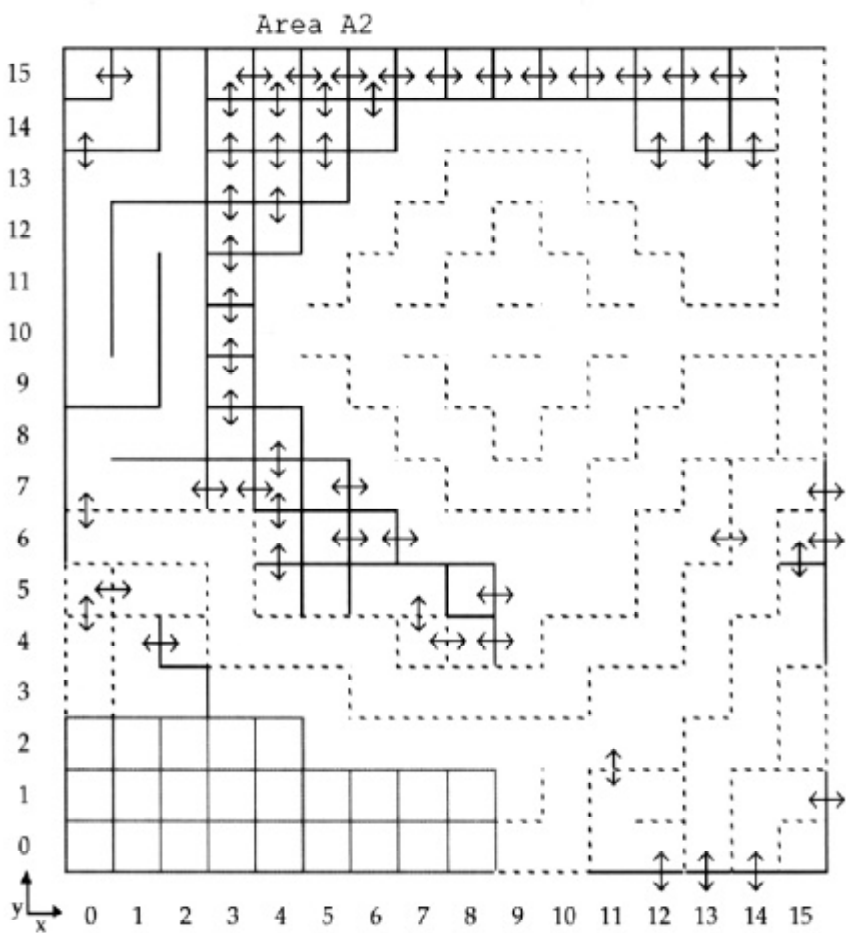

While on your journey you're free to travel all 20 geographic regions. From the onset these regions appear near identical. It is later you observe the distinct differences. The farther you travel from the center of the Land of Yarn, the more dangerous your journey becomes. Thus the four corners clearly become most treacherous. The same holds true for inner depths. When moving from place-to-place fly spells prove more advantageous than merely strolling about. Look for secret passage, as it aids in safe travel. Read all signs. Study your spells, many now work. Climates are indigenous. Perhaps it best to keep the Map of the Land of Varn close at hand. The desert is hot, draining and full of whirlwinds. Travel here is impossible without the exiled Lord's map and plenty of culinary goods. Keep measure of statistics. The sea is wild and woolly with tidal waves. It too is full of wet and wicked creatures unknown to you. Forest regions are dense and filled with encounters. Watch for crumbling mountains and avalanches. It's suspected that many a party has made each and every one of these regions their final resting place.

Region A-1

This is the first of four corners. Consider yourself warned! You'll find why the Forest is called Dark. The One by Land, known as Dark Rider, roams the underbrush. Quench your thirst in the pool of health. Though difficult travel on foot unravels the concealed.

Region A-2

KEY: — Dense Trees - - - Mountains . . . Water

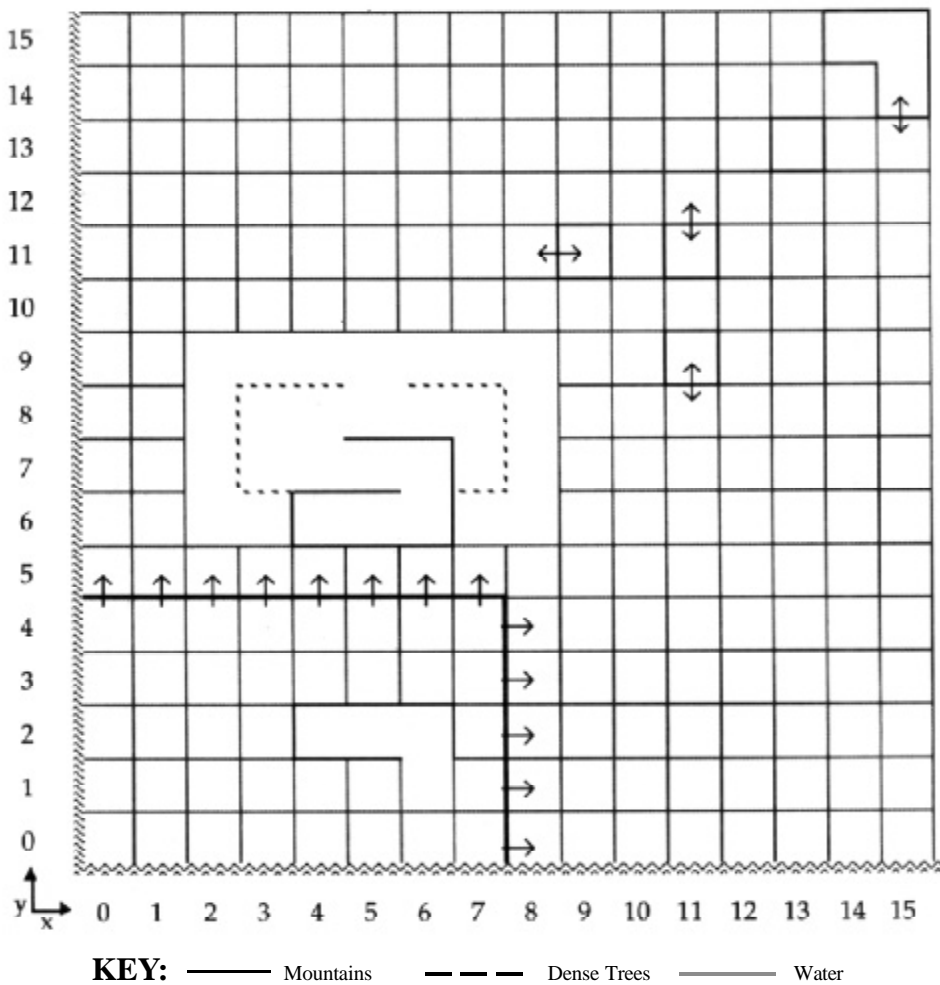

The Valley of Fire appears steamy, while the Lava Beasts hunger. Fire Spells save you. The waters are rich. Look for the Druid, her treasures are regal. A battle with the Red Dragons appears tooth and nail.

Region A-3

Find here the One by Water. His roam roughens and rocks the sea. A past conquest with one of the four proves you have skill. Here at Luck Island that soon becomes your reward.

Region A-4

Again this is one of the corners, though calm it appears on your map. Luck will be tempted, yet one in three reaps the reward. When you cross the bridge, a word to the wise, remember your color. This key is of deep pink color.

Region B-1

The Ancient Glacier's coldness is biting. Watch for avalanches. Here wait two castles, caves, a town and the Mountains of Despair. The Quivering Forest provides a shooting experience. After many traps, you'll find the key of grayish white.

Those who have mastered their destiny can further their good fortune! It is here you'll find the Gates to Another World. Till this book is read, that hook shall remain unopened.

Region B-2

KEY: — Glacier - - - Dense Trees Mountain

Find secret passage through New Glacier. The one who calls herself Ice holds your keys. First diamond, and the second brings bronze. She's cold to the touch, but warm with emotion. What's a few battles, when the treasure's abundant? There's a dungeon and cave. The cave has been known to have powers of stone.

Region B-3

KEY: ——— Mountains - - - Water ——— Dense Trees

You'll find safety in Portsmouth knowing the contrary. Signs lead to Blithes Peak, while waters fill with demons. The Wizard Ranalou waits for you in its cavern. When it comes to the dungeon, a successful courier need blow the whistle.

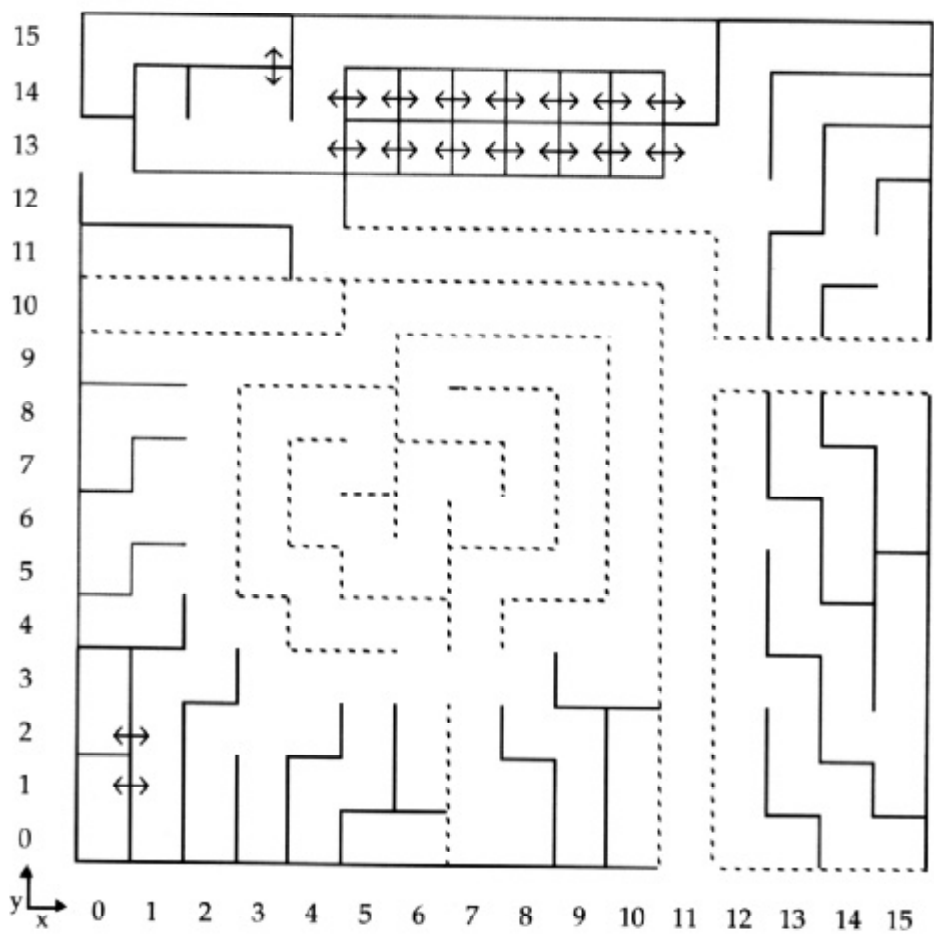

Region B-4

KEY: ——— Mountains - - - - Trees ———— Water

These waters have taken many and their remains give you wealth. It's rumored there's an uncharted Isle. Worth a search if you're low on gems. Though they don't grow on trees, you're sure to find plenty.

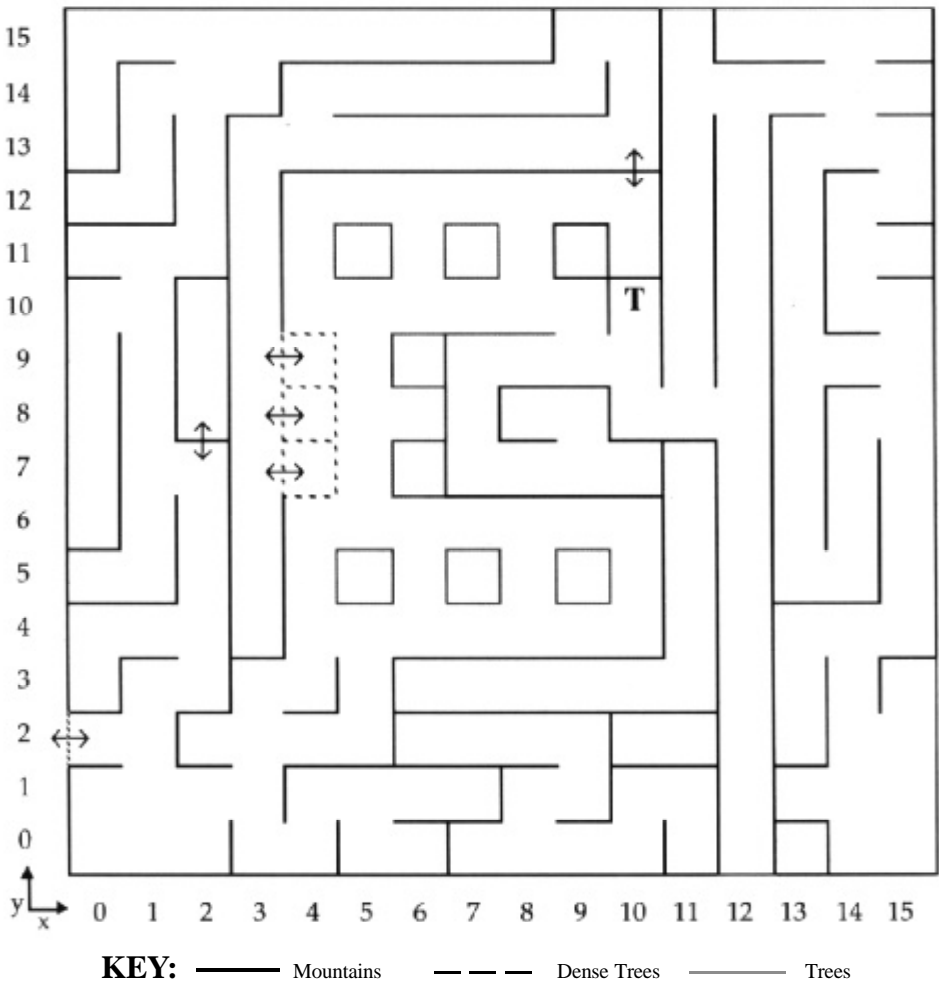

Region C-1

KEY: ——— Mountains - - - - Trees ——— Dense Trees

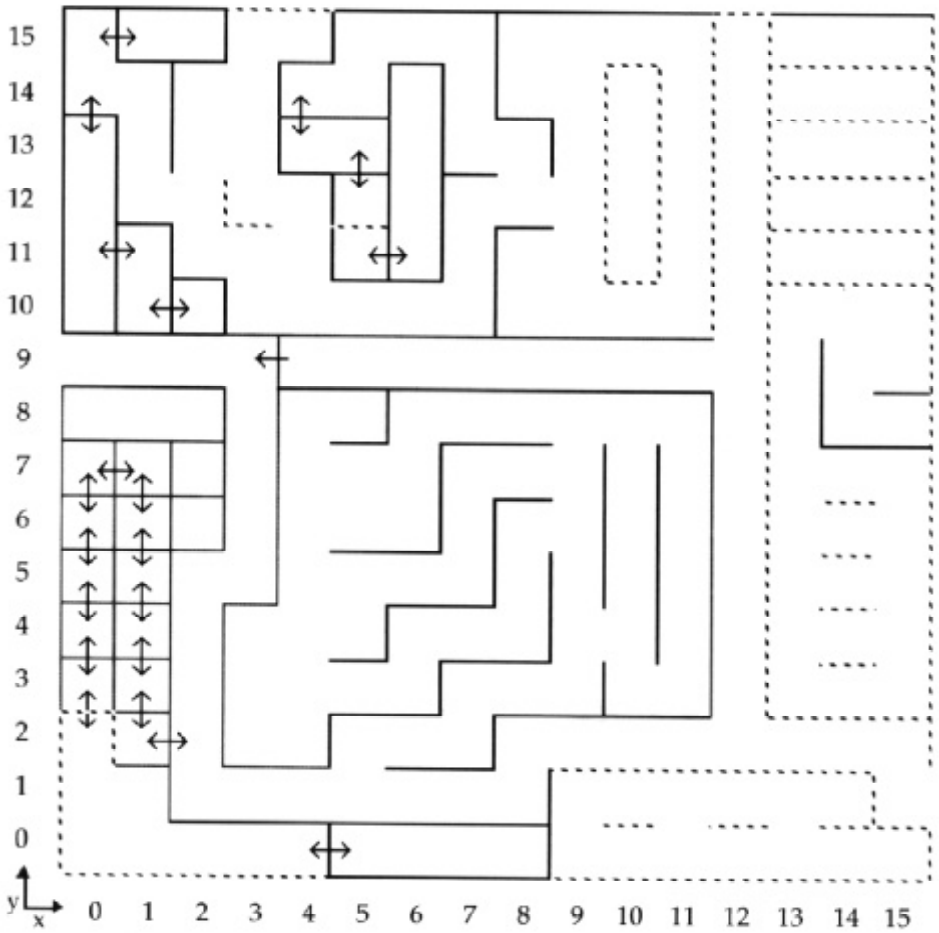

Roads and posting lead you to the Ancient Way. Most find drink from the fountain refreshing. If you seek to enter castles, stumble on the abandoned merchant wagons. You'll find your pass. The treasure chest holds an enchanting whistle.

Region C-2

It's here you find the quaint town of Sorpigal. Pleasant Valley too is nice for those beginning in travel. The gypsy gives you color, be sure to take note. You'll need levitation skills. Enjoy the fountain's drink. Use your magic to contend with the statues. Their destruction need not be justified.

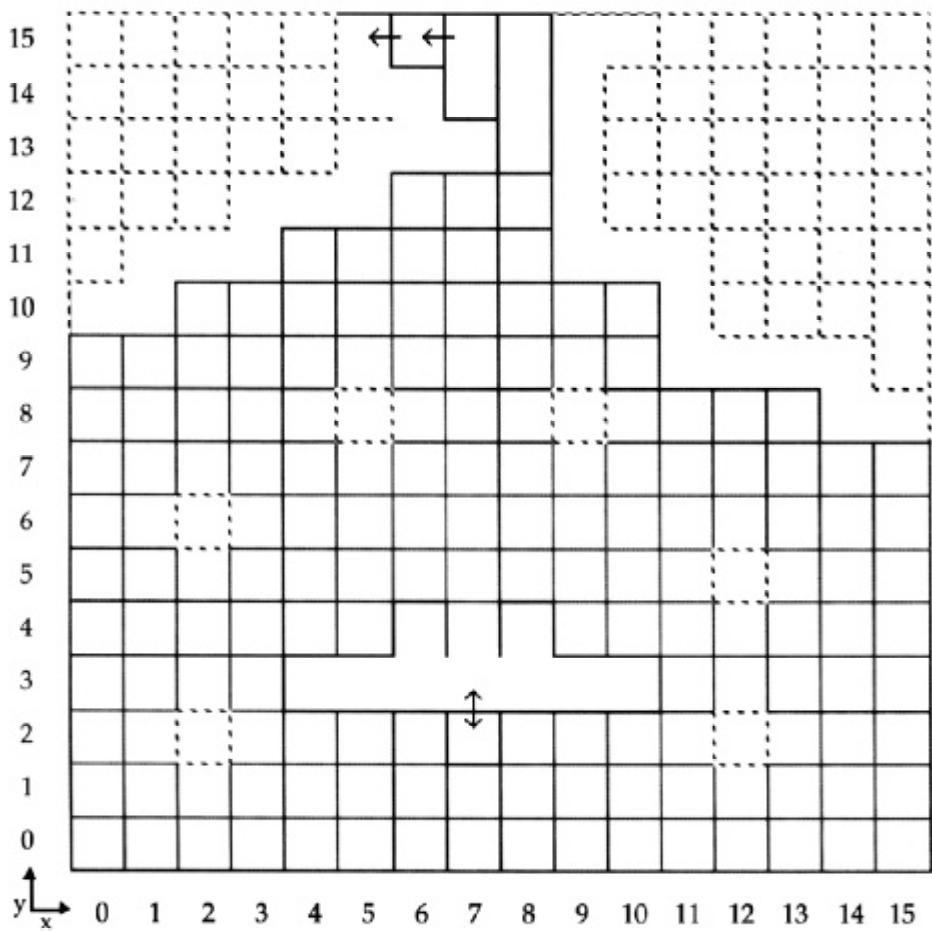

Region C-3

KEY: ——— Mountains - - - Trees — Dense Trees

Wyvern Peaks is, at best, difficult. But we promise eyes will be aglow of your glory. The exiled Lord helps with your quest and navigates your travel. You'll not find your clue in color. See the Hermit if traveling light.

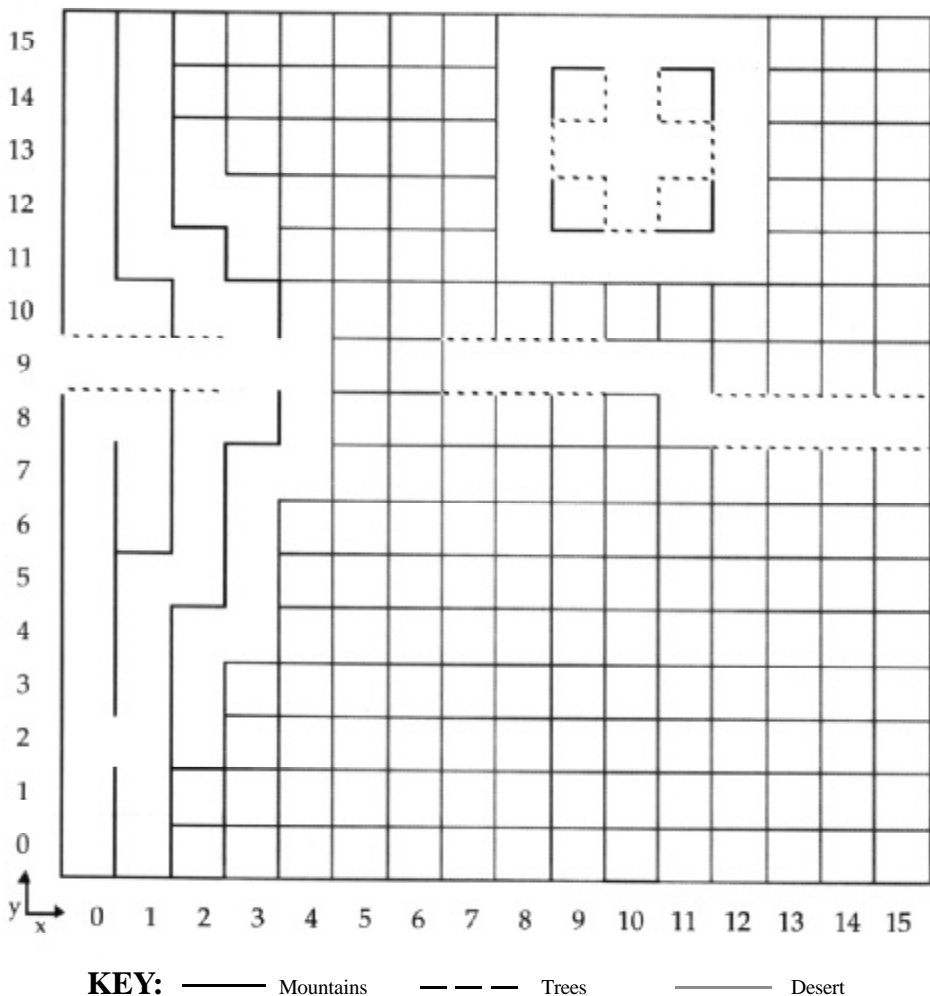

Region C-4

KEY: ——— Mountains - - - - - Trees ——— Water

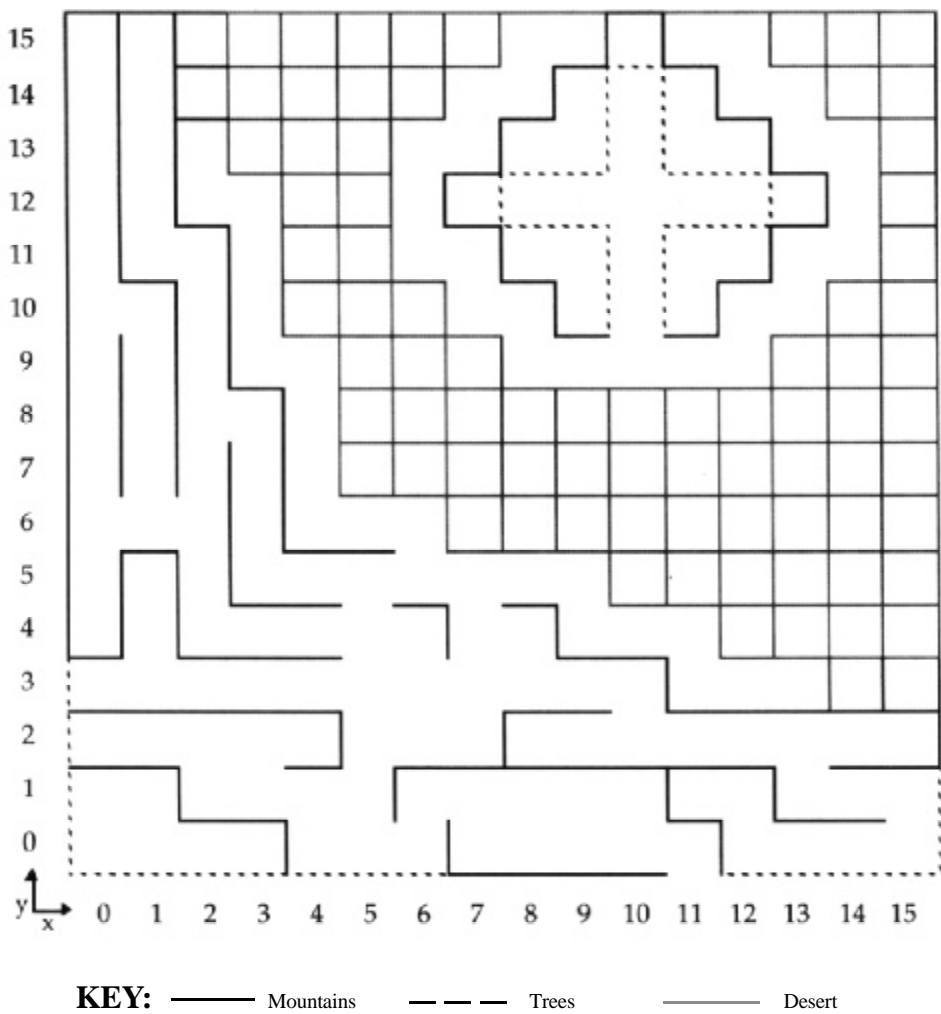

With the key of pinkish color, cave passage is gained. Sounds supplied by whistles of the Enchanted Forest and echoes of the Weeping Woods. Volcanoes erupt. The dungeon is tricky, but its center is force. Search shipwrecks and be warned the natives are restless. And worse, they're magic proof.

Region D-1

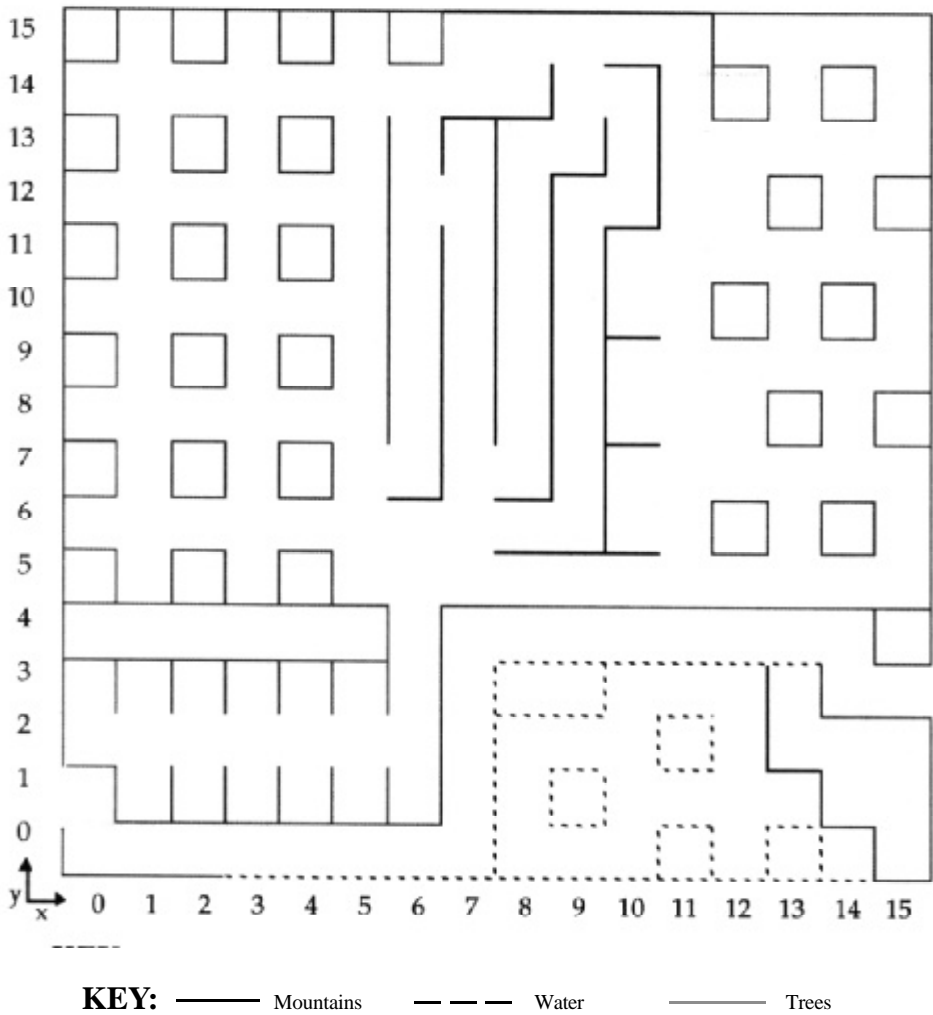

This region is not to be attempted without proper navigation tools. Here Lord Kilburn's location is evidenced. Roaming openly, you'll find the One by Sand. Trade freely, as cactus nectar quenches your insatiable thirst from the Invading Desert.

Region D-2

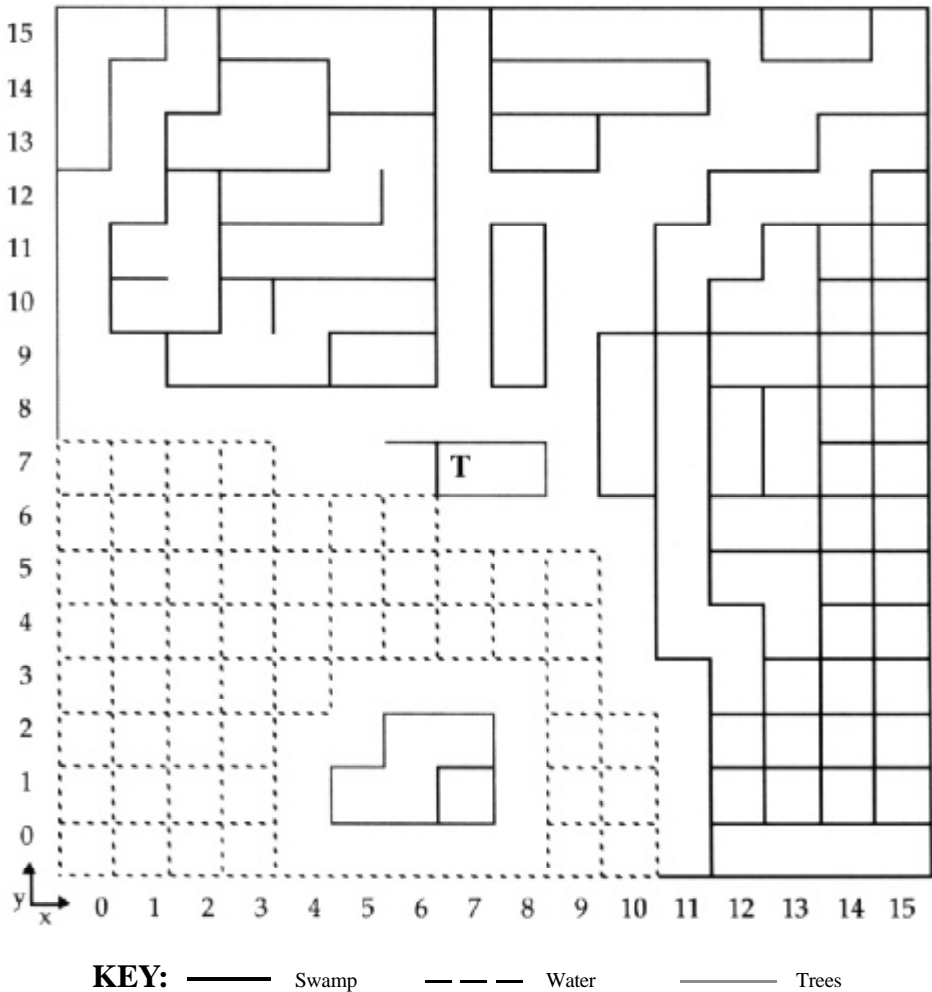

Encounters in the Northern Barrier are deadly. Yet once over its wall you'll be rid of all curses and evil. Even your alignment will be restored, thanks to the Clerics of the North, East, and West. The pool of wisdom grants to those who are worthy. First is free, none more without a fix on the ones of the South.

Region D-3

This region is rife with adventure. Climb all trees in Guire Grove and pick your pleasure. Though difficult and full of chance, rewards are rich. Find entrance to the cave of Square Magic. Watch and be warned of the soft wet soil of Pead Marsh.

Region D-4

Here roams the One by Air. The Marshes are full of “undead”. You’ll find passage through the Swamp of the Dead exhilarating, yet non-negotiable as well. Here too Algary sits. Your colorless clues add up in the Isle of Og. It is here, through doom you learn more of the great truths of the Secret of the Inner Sanctum.

Region E-1

KEY: ——— Mountains - - - Trees ——— Desert

In this corner, here lies the Valley that Time Forgot. And in that time this region grew powerful beyond belief. Be sure to turn the Hourglass that passes the Sands of Time. Find passage to Dusk and the ruins of Dragadune. Note these ruins are worth exploration. One of your quests need pass judgment here.

Region E-2

It's a safe bet that encounters and random teleport at the Eastern Barrier range from odds of 1 to 3. Aliens now inhabit this region. Intellects increased by their strange alien devise. Learn of an escaped prisoner and his new identity.

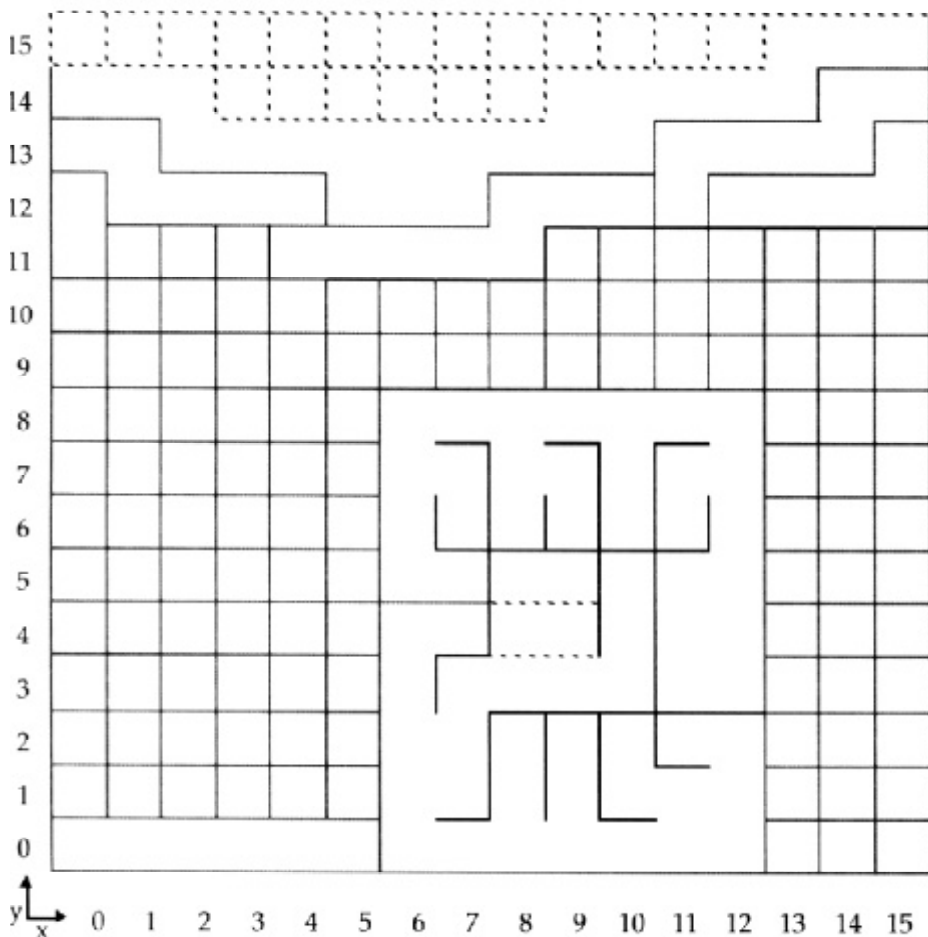

Region E-3

KEY: ——— Mountains - - - - - Trees ——— Glacier

This region holds the Kings Orchard which has known more fruitful times. Find here Castle Alamar, in need of great repair. The key of the cold emotional princess does you well. Note all clues, as distant harps soothe the lion's roar.

Region E-4

KEY: ——— Mountains - - - - Trees ——— Glacier

This final corner is the unrelenting place for those lost souls stuck in the Swamp of the Dead. Encounters are cryptic and unnatural. Travel the Perilous Peaks if you so dare! Here you'll discover the fabled Building of Gold and its dungeon. Also sits and stirs evil beyond evil. The few who have returned refer to this area as Dragon City. Beware!

Castles

Traveling the castles of the Land of Varn brings you closer to the Secret of the Inner Sanctum. Though only five appear on your map, it is suspected, even believed, you will learn of another. Assuming there is this sixth castle, it need be ventured only by those possessing great skill and experience. For they alone will truly reap its rewards. When frequenting castles, be sure to have your merchants pass in hand that which you acquired from The Ancient Way. Castles appear similar and not. Having prisoners, kings and messages make them same. Many a quests are to be granted. Take note of messages, especially in silver. One of the castles holds that interleave and the one for gold as well. All is not as it seems. Make your clues work together. Be sharp, as you'll be deceived often. Think straight, for you'll easily be confused. This is the similar, now find what's not.

Legend

 = Door (may be locked, trapped, etc.)

 = Magic Barrier

 = Secret Door

Castle White Wolf

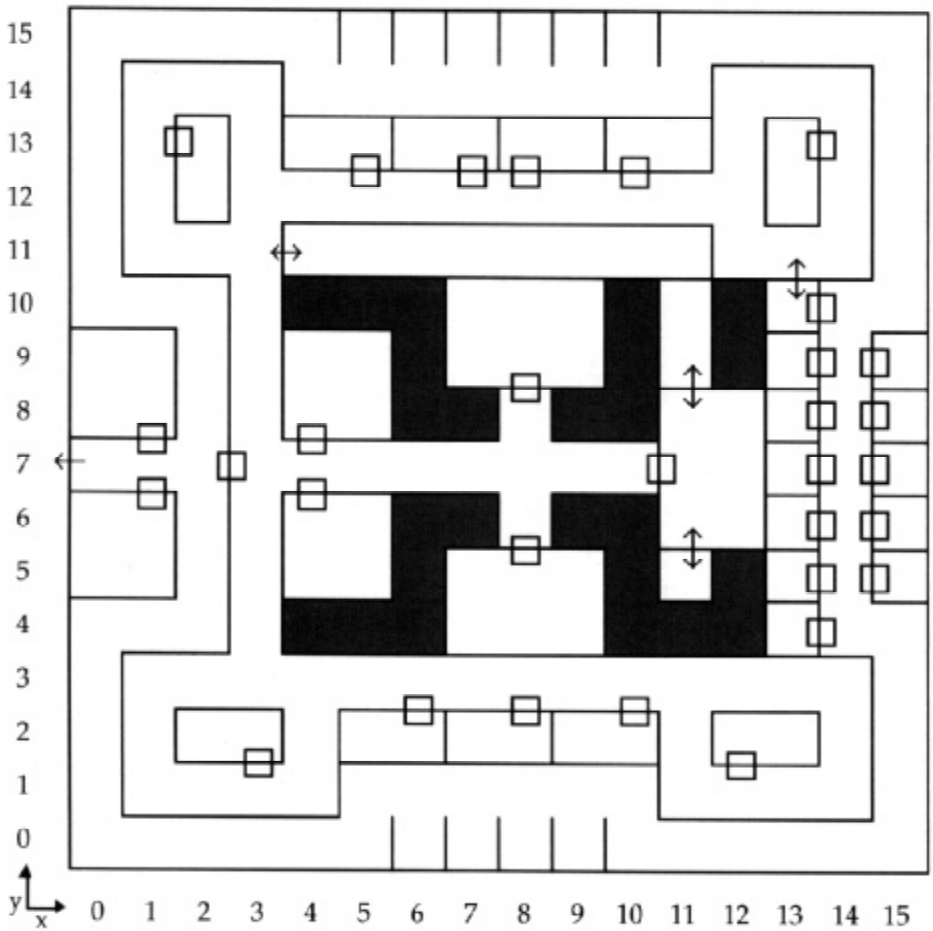

Appearing calm and sedate, this castle grants you plenty of adventure. All told, the quests tally seven. Lord Ironfist rules with power. Yet behind his throne you can remove his force. This brings you great treasure. The guards are cruel to those without pass.

Castle Blackridge North

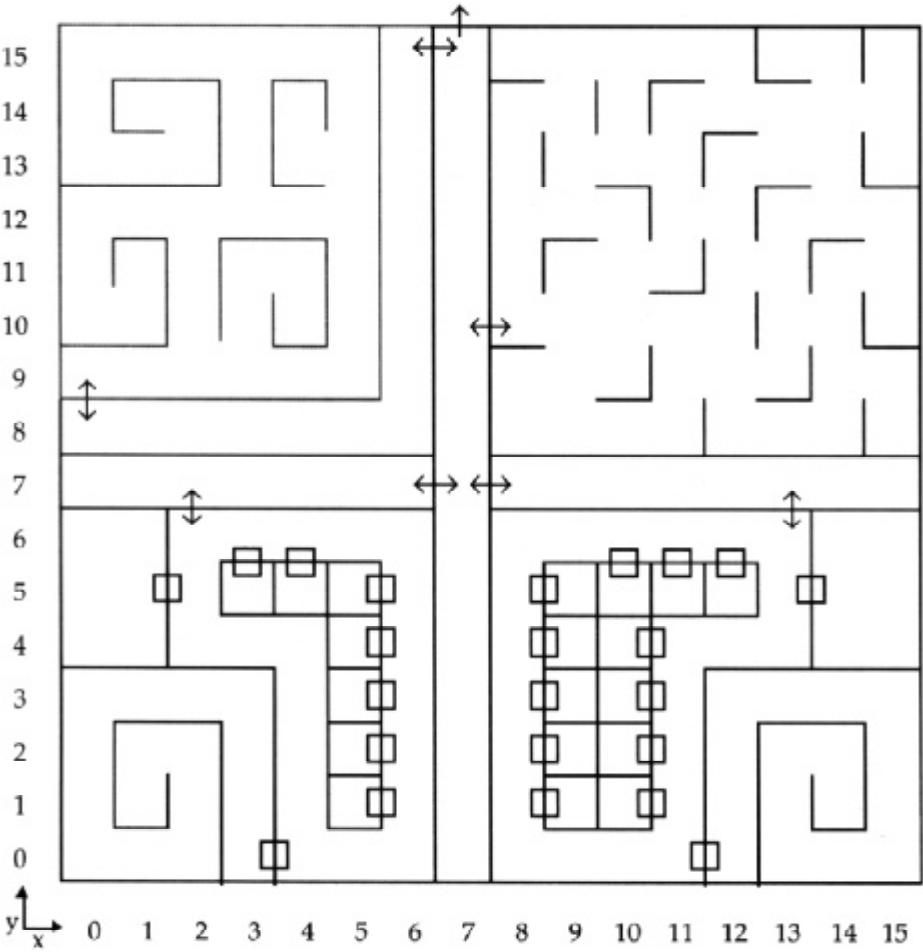

Lord Inspectron's orders are clear. Accept his quest, as you'll choose from seven. Through emptiness you'll find treasure. The Quivering Forest awaits you, for only from this castle will you find its passage.

Castle Blackridge South

Lord Hacker is in need of your party. Seven quests he is fulfilling. A brew he is bubbling. Bring his ingredients before its boil. When finished with his quests, see him only if traveling light. At seven, ask for no more.

Castle Dragadune

No Lord waits in this decrepit castle. As your gait crosses the rot of decayed bones watch for secret passage. The colored walls hold stairs to the Clerics you search. Visit the clover if you're worthy. Bring all gold to its legendary fountain.

Castle Alamar

There once was a time that gaiety filled these hollowed walls. King Alamar was but a fine and just ruler. Those with much skill and experience discover the Dark Shadow now hovering. Bring your pass to the King. In taking his quest you'll waste much time. Encounters are catastrophic, creatures unnerving. But then you'd expect nothing less guarding this King.

Legendary Castle Doom

As stated, this Castle is suspected, and even believed to be in actual existence. Our objective is not to argue its existence, merely recount the reports of those who believe.

Mapping and location skills prove helpful, as travel has been described circular. Demons, devils and other monstrous beings seem to clone here. A generator need be defused. Odd clues are uncovered. Order and sanity is queried. A clue mimics a calculator, as things begin to add up. Statistics as well! A visit to the dog gave you your key; use it now. Jump skills are tried. Travel on foot has worked best. These findings remain undocumented. It is neither proven nor refuted a search will uncover like situations.

Those Dimensions Remaining

The balance of your travel in the Land of Varn totals, shall we say, 15 dimensions? These dimensions are best described as dungeons and strongholds. You'll even suffer a maze and a plane. Most dangerous, as they stray you far from the safety you once found traveling the towns. Some send you wandering far below the surface. As you journey indoors, many spells now test worthless. If you're unable to gain entry, chances are you do not possess the appropriate skill, experience, or perhaps item. If entry is gained, proceed with caution. Three strongholds are ruled by ones possessing the utmost in power. One dimension is regulated by the Clerics of the South, while another appears to be governed by Dragons of all things! Heed all signs and banners. Note all clues. Mind names and colors. Travel upstairs and downstairs. Search all levels. Encounters occur in closed areas. Expect the impact more advanced, as those you battle prove more strategic than you've witnessed. Search all Black and White painted rooms. If not successful at first, search again. These are the common. Now search their difference...

Legend

Warrior's Stronghold in Raven's Wood Second Level

Through a secret passage you'll locate hidden encounters. No stoning here, rather bouldering instead! Though you'll not find the fifth test, knowing its whereabouts, plus a jump, is the turn off. Once off, expect the Raven Archer. Text reads that meeting him serves as defeating him. The poor find him rich.

Deserted Wizard's Lair in the Quivering Forest First Level

This remains the Stronghold of the Wizard Okrim. Confusing to map, as you need to go down to go across. Expect battle, but you decide your death. Treasure awaits your defeat. The gold message is worth noting.

Deserted Wizard's Lair in the Quivering Forest Second Level

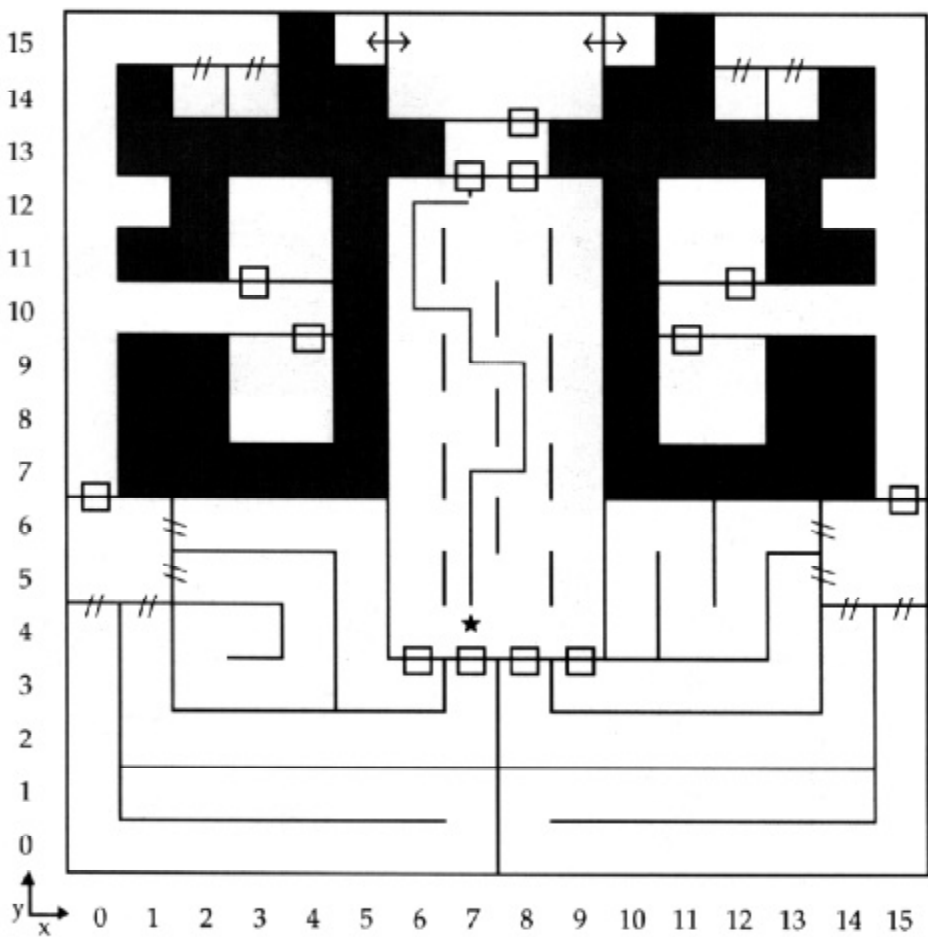

You'll find your fill of misleading messages, cloudy clues and banners that banter. The Stone Face riddles a quest. But that too is part of the jest. Use your mapping and location skills, as teleport proves jovial.

Figure 1 shows a 16x16 grid representing a maze. The grid is composed of black and white cells. Black cells form the walls of the maze, while white cells form the paths. The maze is symmetrical about a vertical line through column 8. The entrance is at the bottom center, between columns 7 and 9. The maze has a complex structure with many dead ends and loops. Small squares are placed at various intersections, and double slashes (//) are used to indicate specific features or boundaries.

Learn the distinction of the two stairwells that take you lower. Clues and messages prove important. Read all signs. The area was of Minotaur's rule. Feel his ego about you.

Stronghold under Enchanted Forest Second Level

Dungeon under Perilous Peaks Fourth Level

Here lies a newness in the air, for this dungeon's construction remains unfinished. Find doors with no walls! Search the structures completed. If you dare enter Dragon Alley, jump at four.

Soul Maze

This, known as Soul Maze, is as much mythical as it is magical. Walls remain solid. Freedom comes when you uncover your captor’s true identity. Look closely at the map, for the answer remains within this maze.

Astral Plane

Greetings and salutations are in order! Bring your key card. Enter all five astral projectors to feel much glory. If you have completed your mission, you will know all Jubilation. For it is now this book has been read. Here you uncover the Secret of the Inner Sanctum. Sorpigal awaits your return. The Gates to Another World soon pass your entry.

Strategies for Game Playing

Those in adventure need develop strategies to discover the true Secret of the Inner Sanctum. The following pages list random guidelines fellow travelers found of great worth. Those listed have been divided into three sections including tips and tactics, coordinates and answers. Don't let the code bewitch you. The key you will find at the end of the section.

Use these hints wisely, as they stop unnecessary straying. Don't be confused, for these remain but a few of the clues you seek. Perhaps it best to develop personalized strategies for your party.

Tips and Tactics

When creating members of your party, take note that a high speed Sorcerer initiates battle. Prime statistics are best at 15+. It has been strongly recommended that a member from each class be represented. However, those familiar with the Land of Varn agree that experimentation proves most interesting.

Visit the Town Inns to save your game. This need be done often. In the unfortunate event your party meets its demise all not saved will be lost. Rest after encounters and before opening those items with traps.

Stock up on food with culinary delights. Use your backpack efficiently, saving room for any items found while adventuring. Beware of the Hermit that trades. He's greedy. Those at the trading post rummage through your backpack as well.

Take note as clues, rumors and such messages are uncovered. Later relevance is discovered. Rumors in Taverns appear rare. Each visit, and all revisits to Taverns warrant further listening. Tipping reveals much. Don't hesitate to tip more than once.

All encounters, save for set ones, are based on your party's current experience level, thus assuring constant challenge. Perhaps it best to first test an area. If proving too difficult, return once you have gained in experience. Each Town, Natural Cavern, Outdoor Region, Castle and Those Dimensions Remaining have their own special events and set of governing statistics.

Monsters, orcs, goblins, demons and creatures total over 200 species. Each species has its own level of friendliness.

Getting over traps and pits may require use of Rope and Hooks or Levitation Spells. If faced with corridors seeming endless, try a Jump Spell. Fly spells appear to be the safest means of travel, save for Doom, where walking reaps highest rewards. If traveling by foot, keep to the main roads.

During combat party members should combine their attacks on the most powerful monster for best results. Allow the Archer to shoot whenever possible. Casting Sleep and Bless Spells improve your chances of survival.

Understand the three types of light. Light known as free shines in Towns. Natural Caverns are generally dark. Here casting a Light Spell allows one day of light. In darkness cast the Spell of Lasting Light. Each square is equal to one light factor.

Wizard Ranalou holds access to all castles. He too believes of six.

Study your map of the Land of Varn. Four monstrous creatures have surfaced. Reap reward on Luck island after defeating one or more.

At least two quests are thought to be false. Some requests of Lords may be found in Towns.

Treasures are abundant! In the Land of Varn, you do judge a treasure by its cover. The richer the container, the more precious the treasure. And of course, the more fierce the traps that guard it! Black boxes contain the most powerful of items. Though rare, they are found only after defeating forceful monsters.

Etherealize and Teleport are possible means of barrier penetration. Some areas show resistance to magic, rest, surface spells, time distortion and dispell magic. Resistance may also appear in combinations.

Visit the Mystic in Algary to find your resistances.

Find protection for the day from Temples, but only if your party proves giving.

Experience and skill may be raised in a variety of ways. Try a visit to the Swaze Pit hidden in the Inn of Algary. The Arena proves you well.

Gather your party's gold, then visit the Fountain in Dragadune.

Sands of Time restores youth. Etherealize gets you there. Once there, beware of Dinosaurs!

When visiting the Ice Princess, visit but a second time for a double pleasure.

If your leader's alignment is correct, visit the Shrine of Okzar. Keep it correct to be judged favorably. Stay neutral around aliens.

Put your clues in interleave order, both of silver and gold, then read top to bottom.

These are but a sampling of tips and tactics those before you practiced. While on your journeys, learn to incorporate these findings with those of your own.

Specific Coordinates

No matter how astute your party, certain items and quests remain difficult to uncover or solve. Much appreciation is due those traveled before you. For they freely share exact coordinates and specific locations of such items you seek. Listed randomly find their understanding of your journeys.

Items found in Might and Magic

Your travels reveal well over 200 unique items found while journeying through the Land of Varn. Most possess special powers. Some may permanently or temporarily modify your party's statistics, resistance or combat abilities. Others may allow casting of any of the 94 spells. While some play a specific role in your quest, even allowing passage to restricted areas. Items are displayed in groupings ranging from one handed weapons, two handed weapons, missile weapons, armor, shields and other assorted items. Each item is explained and defined in specific categories.

The first category gives the item name as it appears in play.

The next category is that of the Alignment setting needed to either Use or Equip this item. Alignment is further defined as (G)ood, (E)vil or (N)eutral.

Class also appears as a category, defining which classes are able to utilize said items. Classes consist of (K)night, (P)aladin, (A)rcher, (C)leric, (S)orcerer and (R)obber.

Equip Bonus not only supplies the statistic that changes when this item is Equipped, but also tells by how much it will change.

When some items are used either the character's statistic may change or the item itself casts a spell. The category Special Power (Use) provides the actual effect made on a statistic by the number shown, or reveals which spell has been cast. (ex. C7/5 represents Cleric spell, level 7, number 5, known as Sun Ray.)

Only those items with special power have charges. The Charges category gives the maximum number of charges an item may hold. You need cast a Detect Magic Spell to ascertain the number of charges remaining in those items you possess. Take note should an item drop to 0 charges while in your backpack it is then deemed useless. Recharge Item Spell will fail you here. When selling an item, it is redeemed for half its gold value. Listed herein is the gold value of all items, allowing you to know its true worth.

The final category lists Damage/Bonus. Should the item be a weapon, the first number listed is the weapon's base damage. For example, an Electric Spear displays 6, suggesting the random base damage ranges from 1 to 6. The second number represents the bonus of the weapon. Note the Electric Spear lists 3. That number represents the "to hit" and "damage bonus" of that item. (i.e. +3 chance to hit, +3 total damage.) Should the item be armor, the second number indicates bonus to Armor Class.

Some travelers before you tried to either Equip, Use or Fight with each item as it was disclosed. If appearing of no profit, others sold such items.
