

# Playing The Veela

Dramatic, haughty, sultry, and manipulative. The Veela is a wannabe TV star with enough clout to back up their views. In a world that manufactures fame for the sake of fame the Veela wants nothing more to be a consumable product even if that means they reach the top over the broken relationships and bodies of their friends and rivals. While not the nicest person out there they do realize that if they alienate everyone no one will enjoy them once they make it big. Not if, but when. It's never a choice for a Veela.

With Cold 2 no matter which stat line is picked, you are primed and ready for to dominate with bitter words or selfishness. You might temper this stick with a carrot (Hot 1) or just double down when you need to back up your words or storm off dramatically (Volatile 1).

There should be a disclaimer made: The Veela is the dramatic one, the player should not be. Be sure to respect the other players boundaries and right to a chance to speak. The Veela will want to be the center of every scene, but there are other main characters, so you may have to conspire with the MC and the other players to ensure that they don't always succeed. Everyone should have an opportunity to make horrible decisions after all.

## The Veela

*The world is a big, wonderful place. A place that needs to know how special you truly are compared to it. The people inhabiting the land might as well be puppets in a play or an audience to your needs.*

*Every performer needs a stage, after all.*

## Darkest Self

Crush anyone who stands against you and voice your opinions with megaphone. No one has it worse than you and you want a full house at your pity party. Escape your Darkest Self when you see a tragedy that doesn't involve your drama or when you willingly listen to someone else's problems.
