

Hello!

Thanks for purchasing **The Newly Arrived**. This document is here for reference to help you put together your print & play copy. In addition to a colored version, I am providing a black and white version of the print & play just in case that fits your printing needs better.

The Newly Arrived PRINT & PLAY includes:

A) 6 Main Cards (One side has art) B) 20 Instruction Cards

C) 5 Voting Cards D) 40 Question Cards

*** The "I Motion For A Vote" Card is a Question Card. Make sure to keep it with the Question Cards deck

** Also, although the Main Cards are optional, the Setup card (Main Card-5) is essential for newbies to the game.

Instructions for The Newly Arrived PRINT & PLAY:

- Decide which version you want to print: colored or black + white.
- Set paper size to US Letter size (8.5in x 11in).
- Cardstock paper is best although I used regular copy paper for all my copies.
- Cut out the cards. Once cut, each card measures 2.5in x 3.5 inch (63.5x88 MM).
- These cards will fit nicely into FFG standard game card sleeves.

***If your printer allows double-sided printing, then go ahead and print the whole entire print & play double-sided. We did our best to format the files to work this way, and our print & play copies turned out great!

I hope this guide helps. It's my first time writing one of these. Just like it's my first time designing a print & play. Happy storytelling! And mabuhay!

J.
